

**ENTRUST**

## Instant ID as a Service

### HIGHLIGHTS

We brought the security, adaptability, and transformative innovation that you expect from Entrust to the cloud. Our ID issuance software gives you all the state-of-the-art features – but none of the IT headaches. Together with our Entrust Sigma Series ID Card Printers, you can easily issue the most secure identities in the world.

- Simple
- Secure
- Sophisticated

### KEY FEATURES & BENEFITS

#### **Incredibly simple and user-friendly**

- With cloud deployment, there's no heavy download, and Entrust handles the software updates and support
- Drag-and-drop, browser-based interface makes it easy to enroll, design, and issue cards
- Intuitive printer dashboard lets you see printer status, order supplies, check cleaning status, update firmware, or contact help – all from your mobile device

# Instant ID as a Service

## Comprehensive, convenient, secure

- Issue a physical ID (card) and digital ID (mobile flashpass) at the same time
- Mobile flashpass supports basic badging with visual identification and bar code/QR code support
- Cloud-based APIs offer a portfolio of printer interface tools
- Data sent between software and printer is encrypted

## What separates our ID cloud software from others?

- Simultaneous digital and physical credential issuance
- Direct API printer connect
- Intuitive printer dashboard
- Intelligent printing (matches printers, supplies, card types)
- Secure solution that leverage a cloud platform that is secure, mature, and trusted

## Why cloud?

- No capital IT expenses
- Minimal install and easy administration
- Automatic software updates
- Included technical support
- Ease of use
- Instant provisioning
- Flexibility and scalability
- Usage-based monthly pricing

## Included features

- Mobile enrollment and issuance
- Batch printing
- Easy onboarding process: Best-in-class process for onboarding customers as tenants and cloud-enabled, secure printers
- With cloud deployment there's no SMAs: Entrust handles the software updates and support
- Simple and transparent usage reports allow customers to monitor and analyze credential issuance during any time period
