# ENTRUST EU S.L.

*Certificate Policy (CP)*
*For eIDAS Qualified Signature Certificates (eIDAS QSigC)*

**Version: 1.5**
**November 30, 2021**

## Revision History

| Issue | Date | Changes in this Revision |
|-------|------|--------------------------|
| 1.0 | June 17, 2020 | Initial version. |
| 1.1 | June 19, 2020 | Certificate policy OID 2.16.840.1.114028.10.1.6 added to certificate profile |
| 1.2 | July 22, 2020 | Add AATL extensions to certificate profile. |
| 1.3 | October 30, 2020 | Update certificate profile to clarify RSA keys supported. |
| 1.4 | May 7, 2021 | Update verification of subject identity |
| 1.4.1 | November 15, 2021 | Change Entrust Datacard Europe to Entrust EU, S.L. |
| 1.5 | November 30, 2021 | Update for new CA names and update for QCP-n-qscd certificate profile requirements |

# TABLE OF CONTENTS

# 1. Certificate Description

## 1.1 Definition

This certificate is qualified for a natural person as established in European Parliament and Council Regulation (EU) Num. 910/2014 Section 4 dated 23 July 2014, on electronic identification and trust services for electronic transactions on the domestic market, repealing Directive 1999/93/EC.

This certificate identifies the entity responsible for the electronic signature. The certificates supports validation to prove that the electronic document was issued by the identity, providing certainty as to the origin and integrity of the document.

Entrust issues the eIDAS Qualified Signature Certificates (eIDAS QSigCs) to natural persons. A natural person or a legal person may be described as the Subscriber. A natural person will be described as the Subject of the certificate.

This certificate has a maximum 3-year duration.

Capitalized terms are defined in Certification Practice Statement (CPS) section 1.6.1 - Definitions, which are incorporated herein by this reference.

## 1.2 Certificate Policy Object Identifiers

The certificate will include the following certificate policy object identifiers (OIDs) to indicate the policy from which the certificates will comply.

**eIDAS QSigC Policy OIDs**

| Certificate Policy OID | Certificate Policy Definition |
|---|---|
| 0.4.0.194112.1.2 | QCP-n-qscd as defined in ETSI EN 319 411-2 |
| 2.16.840.1.114028.10.1.12.2 | QCP-n-qscd as defined in ETSI EN 319 411-2 |
| 2.16.840.1.114028.10.1.6 | Adobe Approved Trust List (AATL) Technical Requirements version 2.0 |

## 1.3 Scope of Use

The certificates are aimed to support the advanced electronic signatures based on a qualified certificate defined in articles 26 and 27 of the Regulation (EU) No 910/2014.

The certificates are issued subject to the conditions and limitations defined in Entrust's terms and conditions and the CPS, see https://eu.entrustdatacard.com/resources/.

## 1.4 General Stipulations

### 1.4.1 Obligations Concerning Identification

Entrust verifies the identity and any other relevant circumstances of the Subject and the Subscriber for purposes of issuing the certificate.

### 1.4.2 Obligations of Certificate Subscribers

The Subscriber's obligations are stipulated in CPS section 9.6.3 - Subscriber Representations and Warranties.

## 2.      Certificate Lifecycle

### 2.1      Application

By accessing Entrust's website, the Applicant Representative will fill out the certificate application form. By signing the application, the Subscriber agrees to the terms and conditions of the certificate.

### 2.2      Verification of Identity of the Subject

Entrust shall verify the identity of the Subject of the certificate in accordance with the CPS section 3.2.3.

The Subject shall be uniquely identified with a unique identity number attribute included in the Subject name of the certificate. The unique identity number shall be determined in accordance with the CPS section 3.1.5.

### 2.3      Issue and Delivery Procedure

Entrust shall issue and deliver the certificate as follows:

(i)    The Applicant Representative signs the terms and conditions and enrolls for a certificate management account. The Applicant provides Subscriber information to be assigned and verified to the account.
(ii)   The Subject can apply for a certificate through their account by providing the information to be included in the certificate. The Subject will select the validity period and provide a the public key through a certificate signing request (CSR).
(iii)  The certificate application will be technically verified to meet the certificate policy, if successful the certificate will be issued.
(iv)   The certificate will be provided to the Subject through an API response.

### 2.4      Certificate Verification

Entrust will follow procedures in accordance with the CPS section 3 - Identification and Authentication, to verify the certificate application before issuing the certificate.

### 2.5      Certificate Revocation

Entrust may revoke a certificate for reasons in accordance with CPS section 4.9.1.1 – Reasons for Revoking a Subscriber Certificate.

A Subject or Subscriber may request their certificate to be revoked.

Relying Parties, ASVs, Anti-Malware Organizations and other third parties may submit a certificate problem request (CPR). Entrust will investigate the CPR in accordance with CPS section 4.9.3 – Procedure for Revocation Request. If required, Entrust will revoke in accordance with the requirements of CPS section 4.9.1.1.

A Subject or Subscriber shall request revocation of their certificate if they havw a suspicion or knowledge of or a reasonable basis for believing that of any of the following events have occurred:

(i)    Compromise of the private key;
(ii)   Knowledge that the original certificate request was not authorized and such authorization will not be retroactively granted;
(iii)  Change in the information contained in the certificate;
(iv)   Change in circumstances that cause the information contained in certificate to become inaccurate, incomplete, or misleading.

### 2.6      Certificate Renewal

Subjects may request renewal within 90 days of expiry of their existing certificate. Entrust will reuse or verify data before certificate issuance in accordance with the CPS.

## 3.      Cost

The Subscriber must pay the fee for the certificate or certificates, according to the payment basis selected. Fees are discussed in CPS section 9.1 - Fees.

## 4.      Certificate Profiles

**eIDAS QSigC Profile (QCP-n-qscd)**

| Field | | Value |
